WILL CHAROUHIS - A MILLION MANGROVES

Discussion Questions

One person can make a great impact, but it's even better when more people are working together. How has Will spread the word about his project?

How do mangroves help the environment?

Do you think young people can make a difference in combating climate change?

How is Will making his mangrove trees more capable of withstanding Earth's environmental stressors?

Not all communities have mangrove trees. Where could you pick up trash in your hometown?
